BE KIND

1st Verse:

I feel like a shadow in the dark,
I'm invisible, you see.
Never felt the sparkle in my heart,
Left alone no one can see.
I knew no one cared, no one knew,
They didn't know I was a human like you.
I was a ghost with my head hunched
down low,
I feel like I've been left alone.

Pre Chorus:

Now it's time for a brand new start,
Everyone feel the spark in their heart.
The smallest change will make 'em smile,
We can walk the extra mile.

Chorus

I know I need to stand up with pride,
No more trying to run away and hide.
'Cause now the whole world is gonna
see,
Who I am and who's the real me.

2nd Verse:

I know I'm the one that's dark and unknown,
I'm invisible, you see.
I feel like the wind, constantly blown
Left alone no one can see.
So when I'm back home, I scream and shout,
Just need to let my feelings out
The tears run down and they end up dry.
I feel like I've been left alone.

Pre Chorus:

Now it's time for a brand new start,
Everyone feel the spark in their heart.
The smallest change will make 'em smile,
We can walk the extra mile.

Chorus

I know I need to stand up with pride,
No more trying to run away and hide.
'Cause now the whole world is gonna see,
Who I am and who's the real me.

Chorus

I know I need to stand up with pride,
No more trying to run away and hide.
'Cause now the whole world is gonna see,
Who I am and who's the real me.
