

# SANTA'S WORKSHOP THE NORTH POLE

---

## To 'The Best' children in the whole wide world!

Those are the words of Mrs Salmon! She arranged a Google Meet with me on Wednesday because she wanted me to know how amazing you all are. She sent me the list of names, all 398 of you, with reasons why you deserve an extra special Christmas.

She was so excited and proud when she told me about your 'above and beyond' kindness.

She told me how thoughtful you are by thinking of children who will have no families, homes or food this Christmas and your donations to the 'ACM Give a Gift Campaign'. She told me about your kindness to each other, your efforts to always try your best with your learning, your beautiful manners and of course your happy smiles everyday in school – even behind your masks!

## WOW ACM Primary School!

I'm so impressed that I have added a date in my diary to come and see you. At the moment I'm just finishing repainting my sleigh and Rudolph and the other reindeers are exercising in the gym ready for the long flight. As soon as we have finished we shall sanitise our hands, hooves and sleigh, put on our masks and come and visit you.

In the meantime, don't forget to put your 'Santa Letters' in the post box in my grotto near the main Reception area.

Keep being good, keep being kind and hardworking and keep being happy. See you all soon!

## Lots and Lots of love
